Portfolio: hafidzsite.netlify.app

PROFESSIONAL SUMMARY

Software Engineer with 5+ years of experience designing and delivering enterprise software solutions across .NET, SharePoint, and Microsoft Azure environments. Proficient in C#, Java, PHP, and JavaScript, with hands-on expertise in ASP.NET Core, Microsoft 365, and cloud-based development. Skilled in Agile delivery, CI/CD automation, and DevOps practices, with a consistent track record of improving application performance and reliability. Holds Microsoft certifications MS-900, AZ-900, and AZ-104. Open to QA or DevOps opportunities.

CORE COMPETENCIES

- **Problem Solving & Troubleshooting:** Application support and issue resolution across .NET and SharePoint systems including KAF Resume Builder, Maxis MBIC, IFX Traceability, STAREP, and CB Exchange Server Sync projects.
- **Cloud & Automation:** Azure cloud migration support, Power Automate, Azure DevOps, and PowerShell scripting for infrastructure, code integration and release automation.
- **Software Testing:** Functional Testing, End-to-End (E2E) Testing, User Acceptance Testing (UAT).

TECHNICAL SKILLS

Programming Languages: C#, VB.NET, PowerShell, Java, JavaScript, TypeScript, PHP

Web Frameworks & Libraries: ASP.NET, ASP.NET Core MVC, WebForms, SPFx, React, Angular, jQuery, Bootstrap, Laravel

Testing Frameworks: xUnit, NUnit, Jest (JavaScript)

Design Tools: Adobe Photoshop, Adobe XD, Figma, Canva, Microsoft Visio

Operating Systems: macOS, Linux (CentOS and Ubuntu), Windows 10/11, Windows Server 2019

Platforms & Technologies: ASP.NET Core, Power Apps, Power Automate, SharePoint, Dynamics 365, Azure, Azure DevOps, SonarQube, Git, GitHub, Visual Studio Code, Visual Studio 2026, Microsoft SQL Server 2022, SSMS, Oracle Database, Microsoft 365, Oracle VM

AI-Assisted Development Tools: GitHub Copilot, Anthropic Claude, ChatGPT, Microsoft Copilot, IFX4GPT

PROFESSIONAL EXPERIENCE

Software Engineer (.NET & DevOps)

Infineon Technologies – Semiconductor Manufacturing, Kulim, Malaysia | March 2024 – March 2026

- Modernized FI STAREP Reporting and Traceability applications by improving UI usability and implementing performance optimizations, achieving approximately 50% faster report generation and data-query response times.
- Designed, developed, and maintained ASP.NET Core applications and REST APIs, delivering high-quality, reusable, and scalable solutions supporting critical business functions for global end users.
- Designed and implemented automated CI/CD pipelines using Azure DevOps, reducing deployment time by approximately 90% and minimizing human error across multiple environments.
- Scripted deployment provisioning and release management using PowerShell and YAML, cutting task execution time by approximately 50% and improving release consistency across DEV, UAT, and PROD environments.
- Performed unit testing and code quality checks in automated deployments for .NET applications, achieving 80% test coverage pass rate.
- Conducted code reviews and implemented best practices for maintainability and performance, ensuring alignment with FI/ETF architecture standards and improving code quality across the Agile team.

Technologies: ASP.NET Core, MVC, WinForms, C#, PowerShell, jQuery, JavaScript, Bootstrap, xUnit.net, NUnit 3, Azure DevOps, Git, YAML, CI/CD pipeline, SonarQube, Windows Server 2019, Oracle Database

Application Developer (M365 / SharePoint / .NET)

Maxis Broadband Sdn Bhd – Telecommunications/IT, Kuala Lumpur, Malaysia | November 2020 – February 2024

- Resolved SharePoint support tickets, reducing the Azure DevOps backlog by approximately 50% and lowering repeat incidents by approximately 50% through root-cause analysis and knowledge-base updates.
- Analyzed requirements and redesigned business logic workflows; authored process and technical documentation that reduced rework and effort process by approximately 50%.
- Developed and maintained highly scalable SharePoint applications, Microsoft 365 automation solutions, and Maxis chatbot modules by using SharePoint, ASP.NET, Power Platform, Power Automate, Virtual Agents, Plumsail, SPFx, React, and JavaScript/TypeScript, achieving approximately 99.9% product delivery.
- Built Power Platform pipelines to automate application deployment using ALM automation and CI/CD capabilities, increasing deployment frequency approximately 3x.
- Planned and managed work in Azure DevOps Boards, improving on-time delivery by approximately 50% through prioritization tracking.
- Configured, provisioned, deployed and tested Azure services; delivered migration support achieving 99.9% uptime and approximately 30% performance gains.

Technologies: *ASP.NET, WebForms, SharePoint, Power Apps, Power Automate, Virtual Agents, Plumsail Forms, SPFx, React, SSMS, Azure DevOps, Microsoft Azure*

Application Developer (.NET)

KAF Investment Bank Berhad – Investment Banking, Kuala Lumpur, Malaysia | November 2018 – November 2020

- Built and delivered ASP.NET WebForms solutions for in-house systems (VB.NET, jQuery, Bootstrap, SQL Server) on time, streamlining internal workflows and improving functions for business users.
- Translated requirements into Adobe XD wireframes, clickable prototypes, and process workflows, aligning with stakeholders early and reducing rework by 90%.
- Optimized front-end behavior with jQuery and Bootstrap to improve responsiveness and cross-browser consistency, resulting in smoother user experiences and higher adoption.
- Collaborated with business users during UAT to validate features against acceptance criteria, achieving faster sign-offs and more successful delivery.

Technologies: *ASP.NET WebForms, VB.NET, jQuery, JavaScript, Bootstrap, Adobe Photoshop, Adobe XD, Microsoft SQL Server, SSMS*

IT Developer Intern (SharePoint & Front End)

Breadcrumb Digital – Digital Agency, Brisbane, Australia | May 2018 – August 2018

- Developed and maintained SharePoint solutions and customized client-side web part components that met client requirements.
- Applied Agile practices (Kanban) for SharePoint service delivery, tracked in JIRA platform.

Technologies: *SharePoint, SPFx, SPFx RESTful APIs, React, TypeScript, PHP, JIRA*

Software Engineer Trainee (.NET Product Developer)

Mesiniaga Berhad – Information Technology, Subang Jaya, Malaysia | November 2015 – January 2016

- Analyzed user requirement specifications and implemented and tested complex application solution modules in Java and .NET environments.
- Designed and developed database designs for the developed systems.

Technologies: *ASP.NET MVC, C#, Bootstrap, SQL, Microsoft SQL Server 2012, SSMS*

EDUCATION AND TRAINING

Queensland University of Technology (QUT), Brisbane, Australia

Bachelor of Engineering (Computer and Software Systems) | July 2012 – July 2016

- GPA: 5.594 (7-point scale), Second Class Honours – Division A
- Final Year Project: Robotic Navigation – Reading Traffic Signs (Python)

Iverson Associates Sdn Bhd, Kuala Lumpur, Malaysia

IFX Class: Angular 19 (Seminar) | October 2025

- Covered TypeScript and Angular 19 fundamentals, including components, data binding, component routing, and deployment

KelasProgramming, Kuala Lumpur, Malaysia

Kelas Malam Laravel (Short Bootcamp) | November 2024

- Introduction to application development with the Laravel framework

CERTIFICATIONS AND PROFESSIONAL ACHIEVEMENTS

- Scaled Agile Framework (SAFe) 6 Practitioner Certificate – IFX-sponsored exam, Kulim, Malaysia (March 2025)
- Microsoft Certified: Azure Administrator Associate (AZ-104) – Maxis-sponsored exam, Kuala Lumpur, Malaysia (December 2022)
- Microsoft Certified: Azure Fundamentals (AZ-900) and Microsoft 365 Fundamentals (MS-900) – Maxis-sponsored exams, Kuala Lumpur, Malaysia (May–June 2021)
- 1st Prize, Maxis Microsoft Power Platform Hackathon (Enterprise Team) – Maxis-sponsored event, Kuala Lumpur, Malaysia (December 2020)
